

NBC-CAM

National Board of Certification
for Community Association Managers

August 3, 2010

The Honorable Charlie Crist
PL05 The Capitol
Tallahassee, FL 32399

**RE: William White, CMCA®, CPM Appointment to the Regulatory Council of
Community Association Managers**

Dear Governor Crist:

I am writing to support the application of Mr. William White to the Florida Regulatory Council of Community Association Managers.

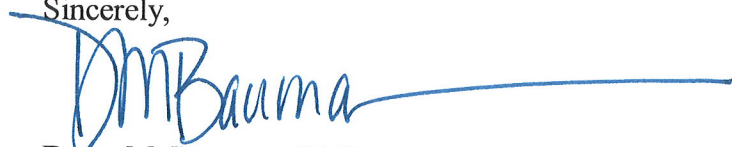

Mr. White earned his Certified Manager of Community Associations® (CMCA) credential in 1996 and has completed the requirements of earning continuing education and upholding our strict standards of professional and ethical conduct for the past fourteen years. In addition, he has been involved in the industry offering community association management services for more than thirty years.

The National Board of Certification for Community Association Managers (NBC-CAM) proudly confers our credential on individuals who have demonstrated the competency as a community association manager. Mr. White demonstrated his abilities and has continued to have a pristine record as he upholds our standards of professional and ethical conduct.

I have experienced Mr. White's impeccable leadership qualities and his abilities to build consensus and work well within an organizational process. Mr. White is an accomplished and respected professional and will represent the profession and the homeowner citizens of Florida well if appointed to the Regulatory Council of Community Association Managers.

Thank you for your consideration. If I can provide any additional information, please contact me at 866.779.CMCA (2622)

Sincerely,

Dawn M. Bauman, CAE
Executive Director

Setting the standard for community association managers nationwide
